

History of the RC Car Group by John Modica

When the Pandemic hit, in early 2020, Ray Mellone, Rad Taylor, Richard Grimaldi and I talked about an activity that we could do for some fun in the difficult times.

Ray, came up with the idea of the Remote Control Cars, and that is how it all started.

We all have Hats and Shirts with our real names and special racing names on them.

We have raced at several other spots including the Everglades track, and this is the best option. Mary Ann Taylor and the other ladies bring snacks and we bring our cars and drinks.

We are more of a demolition derby than a straight racing group. The cars run between forty and seventy miles an hour, so a crash is pretty rough.

We race three cars at a time and then the winners race each other until we have the champion, which is usually ME. Ha! Ha!
